Summary of initial certification costs:

The total price for certification consists of the application fee (ECOCAMPING e.V.), the on-site inspection by external auditors, and the annual license fee.

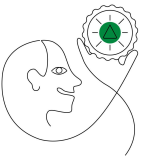

- All prices are exclusive of VAT.
- Travel expenses for external audits: During the audit season (March to mid-June and September to the end of October), grouped audit visits are carried out, with the travel expenses shared amongst the campsites visited. If a campsite requests an individual audit visit outside this season, the travel expenses incurred must be borne in full by the campsite.
